

✉ **VIP INVITATION: THE DATA SHOCK DOSSIER**

SUBJECT: Exclusive: Secure a "1st of Class" Provenance Treatment for Your Chosen Non-Profit's Legacy Media

The Era of Digital Transparency is Here As the digital landscape transitions into an era of synthetic media proliferation, strict regulatory transparency is no longer optional. The imminent EU AI Act Article 50 deadlines—coupled with California's parallel AI transparency laws—have established a new global mandate for digital accountability.

For non-profits, social enterprises, and public benefit corporations, the preservation of lineage and the establishment of trust are paramount.

Your 1st of Class VIP Slot To honor our key list members during this rollout, we have reserved a secure, "1st of Class" slot exclusively for you. We invite you to nominate your most important community group or social enterprise to receive an elite "Data Sommelier" treatment for a legacy, pre-AI mission statement video.

By applying our specialized provenance framework, we will transition their foundational media into a fully certified, compliance-ready trust asset.

The Agentic Sommelier Treatment Your chosen organization's media will be evaluated through our 5D5G5L Agentic Tasting Scorecard, which stress-tests how agentic models handle independent compliance signaling without relying on invisible, heavyweight cryptographic manifests.

The selected organization will receive a bespoke of the attached version, functioning as a formal operational benchmark that includes:

- **The 5D5G5L Evaluation: A pristine baseline evaluation mapped to a classic 20-point sommelier scoring system to verify the visual and metadata dimensions, provenance logic, and contextual anchoring.**
- **The AEIA Human Provenance Stamp: Validation that the media successfully executes the Boolean gate, recognizing explicit declarations of human augmentation as a foundational trust mechanic for community frameworks.**

- **Compliance & Utility:** A high-signal synthesis proving that the media's lineage is pristine, ready for presentation, distribution, or inclusion in broader compliance reporting.

Secure Your Nomination

Pre-AI videos are the ultimate baseline of trust. Please reply to this invitation to claim your VIP slot and designate the organization you wish to honor.

"The QR is the vessel; the seal is the vintage."
